14 I. CALL MEETING TO ORDER AND ESTABLISH A QUORUM

15 Mayor White called the meeting to order and established a quorum at 5:33 PM.

16

17 II. REVIEW DRAFT MASTER PLAN UPDATES

18 Engineers Robert Henry and Cindy Baxter reviewed the Water System Master Plan Update, the  
19 Wastewater Master Plan Update, and the Stormwater System Master Plan Update (copies of handouts  
20 attached to original of these minutes). It was noted that the proposed updates for the Stormwater System  
21 did not have many changes. The water system is expected to experience no surplus storage in five years'  
22 time, when it is also expected that the city may begin running out of treated water on hot summer  
23 weekends. There was discussion regarding the advantages and disadvantages of upgrading the Water  
24 Treatment Plant to a membrane filtration system over the current adsorption clarifier system. The  
25 wastewater update focused on combined collection lines. It was noted that the main trunk (north of the  
26 bridge) is currently adequate but can quickly become overloaded, and that Bay Street will be the most  
27 difficult area to work with, as the line is so deep. Only minor improvements to the Wastewater  
28 Treatment Plant were recommended. The harbor lift is at capacity and should be replaced in the next few  
29 years.

30

31 It was the consensus of the Council to start the planning process soon; the process is expected to take  
32 about 2 ½ years to implement. A 3-4 hour workshop will be scheduled within the next two months, to be  
33 coordinated with the engineers. The Council would like food provided for the meeting.

35 III. ADJOURN

36 There being no further business, the meeting was adjourned at 6:29 PM.
