32 Hageman said Testimony and evidence given must be directed toward Criteria described by the City Planner, or
33 other Criteria in the Code that the Testifier believes apply to the request. Failure to raise an issue, accompanied
34 by statements or evidence sufficient to afford the Commission and the parties an opportunity to respond to the
35 issue precludes appeal to the State Land Use Board of Appeals on that issue. Application materials or other
36 evidence relied upon by the Applicant had been provided to the City and made available to the Public. Hageman
37 asked if any Commissioner had ex-parte contact, conflict of interest, or bias to declare. There was none.
38

39 Lewis summarized his Memorandum dated March 4, 2015 (copy attached to original of these Minutes). Hageman
40 asked if the Commissioners had any questions to address to the City Planner. There was none.
41

42 Hageman then asked if anyone had objection to any Planning Commissioner hearing the Case. There was no
43 objection. Hageman thanked the Applicant for providing the additional information.
44

45 The Applicant was given an opportunity to testify and answer questions from Commissioners.
46

47 Rod Anderson, Owner, (mailing address 5253 37th Ave. S.W., Seattle, Washington 98126) and Dustin Capri,
48 Capri Architecture, (mailing address 747 S.W. 13th Street, Newport, OR) came forward to answer questions from
49 the Planning Commission.
50

1 There was lengthy discussion regarding the Applicant's telephone conversation and exchanged e-mails with the
2 neighbor across the street (Steve and Vee Hand) who originally submitted Written Testimony in opposition to the
3 request and later via e-mail stated *I personally will not object to the Project, but the Variances do promote a*
4 *future precedent for the Community.*

5
6 There was no further Testimony in favor and no Testimony in opposition.
7

8 The Planning Commission further discussed addressing the Hand's precedent concern and clearly defining the
9 Findings should the Planning Commission move to approve the Application: (1) Proposed Height (18 ft. 4 in.)
10 offsets the negativity of the Variances (2) Proposed Front-Yard Set-Back Variance is similar to numerous Homes
11 on Coast Avenue with limited Front-Yard Setbacks; (3) Proposed North and West Side Setbacks are the same as
12 the Existing Foundation; (4) Proposed South Side Yard Setback resolves the encroachment issue; (5) Proposed
13 Structure is a significant aesthetic improvement; (6) Establish the Point of Measurement for the Proposed
14 Building Height to be from the lowest Existing Grade to the highest point of the Proposed Structure.
15

16 Hageman called for a Motion.
17

18 Motion: Leoni moved to approve Case File #1-CS-PC-15 (Coastal Shorelands, Geologic Hazards Permit and
19 Variance Request) and adopt the Conditions of Approval (Items 1. Thru 8.) as recommended by the City Planner
20 and as amended and discussed by the Planning Commission. Taunton seconded.
