"Population growth for the City of Depoe Bay has generally followed the trend of growth pattern of Lincoln County as a whole (Figure 1). The annual percent change though, both plus and minus, has exceeded the percentage of growth experienced by the county. Population estimates taken from the Portland State University Center for Population Research and Census, published in January, 1988, were used to document the changes over the last 10 years (Table 1). The average population growth was approximately 2.8% over the ten year period, with 1981-1982 showing the greatest increase (5.36%) and 1985-86 showing the lowest (-1.81).

\*1980 is based on U.S. Census data, while all other years are estimates from the Center for Population Research.

In the original plan and inventory, population projections used for planning purposes were based on the average growth rate from earlier, more vigorous, growth periods. This resulted in the following projections (Table 2). While these figures are not in line with the actual growth rate, they afforded the opportunity to plan for the public services necessary to meet the needs if growth rates had continued high.

Table 2. Original Population Projections (1980)

653	1011	1342	1608	1859

It is the intent of the City to be prepared for a high rate of growth, even if the actual increases do not meet expected levels. The date used for the original Inventory were in error, and given that no additional studies have been made available to Lincoln County to establish a more current analysis, the following projections for planning purposes will be used. (Table 3). These projections assume that except for the '85-'86 decline the City will experience growth similar to that shown since recovering from the recession in the early eighties, approximately 3.5%.

Table 3. Revised Population Projections (1988)

865	926	1100	1307	1552

Although the projections originally utilized for housing requirements resulted in excess lands being designated for housing or commercial uses, the Lincoln County area as a whole has exhibited an increasing population trend. In order to allow for accelerated growth of the area, the City will assume that the ultimate population in the area will become closer to the original, higher projection. Until such time as better population and housing figures become available from Lincoln County, the U.S. Census of 1990, or other verifiable source, the City will utilize original housing and commercial requirements as listed in the 1982 Inventory."

c. Open Spaces, Scenic and Historic Areas, Natural Resources. Subsection (f) in the "Open Spaces, Scenic and Historic Areas, Natural Resources" section of the inventory shall be amended by changing the reference of "Depoe Bay State Park" to "Depoe Bay City Park."

(c) A sale or grant by a person to a public agency or public body for State Highway, County Road, City Street or other right of way purposes provided that such road or right of way complies with the Depoe Bay Comprehensive Plan and O.R.S. 215.213(2)(q) to (s) and 215.283(2)(p) to (r)."

b. Section 1.030(12) is hereby amended in its entirety to read as follows:

"Major partition: a partition which includes the creation of a road or street."

c. Section 1.030(13) is hereby amended in its entirety to read as follows:

"Minor partition: a partition that is subject to approval by a city or county under a regulation or ordinance adopted pursuant to O.R.S. 92.046 and that does not include the creation of a road or street."
